Eindhoven, Netherlands

## Profile

My name is Erik Nikolov. I was born in 2002 and raised in Ruse, a town in north-eastern Bulgaria. Since I was a kid, my parents have made their essential task to teach me to be disciplined, respectful and to be always well-behaved. They taught me values such as determination and to never give up on my dreams, no matter how hard it is to achieve them. I would say that they have succeeded by always giving me personal examples to follow.

## Employment History

- From 2017 to 2021, every Summer, I have been cleaning cars at my father's car wash company.
- I have been developing Minecraft server from 2012 to 2016. This hobby of mine required me to learn to some extent how to write a programming code, translate a lot of documentation from English to Bulgarian and to manage people.
- Every weekend from 2010 to 2016 I have been helping my mother in her pet shop by feeding the animals and cleaning their cages.
